

AIRSAFETM

A Lock-Out Plug to inhibit your scooter or powerchair's motor drive supply

MSRP \$12.99

ACTIVE CONTROLS

- **Expedites loading for baggage handlers**
- **Protects against joy rides**
- **Reduces risk of damage**
- **Effective for the majority of electric power wheelchairs & scooters**

Other uses include:

- Para-transport vehicles - use to lock-out power during rides
- Dealer showrooms - use to stop unsupervised test-rides
- Exterior car mounted racks - use to prevent people from turning on your vehicle
- Shopping Malls - use for security when vehicle is left unattended
