

# ReJoy™

WITH SWITCH-IT  
**TOUCH DRIVE 2**

**ACTIVE CONTROLS**  
**REHAB SOLUTIONS**

Positioning  
Controls at  
Midline

Effortless Drop-In Connection • Robust MidLine Drive • Multiple Socket Locations

## ReJoy with Touch Drive

The Touch Drive 2 from Switch-It utilizes proven cellphone touchscreen technology for ultra-sensitive & precise driving capabilities. It also can be configured to work in a simple touch (Absolute Mode) or drag (Relative Mode) manner, depending on the client's usage needs & desires. The Touch Drive 2 also can be configured with a built-in mode switch on the screen and a half-screen mode for a smaller surface area & less Range of Motion required. When partnered with the ReJoy mounting platform, The Touch Drive 2 and enhanced display are optimally positioned at midline. Support from beneath offers greatly increased stability and the adjustable gel support pads offer upper extremity support for better control and increased comfort and function.

Available Pre-Assembled • Interfaces with Most Expandable Electronics

Up to 3 Socket Positions • Gold Plated Connection Pins
